Profile

Motivated and self-driven Information Technology student with a strong foundation in mobile app development using Flutter and Dart, and Python. Eager to apply programming skills to real-world projects, contribute to dynamic teams, and continue learning in a practical environment.

Key Skills

- Flutter & Dart Mobile Development

- Python Programming (currently learning Django)

- Firebase / SQL

- Version Control (Git & GitHub)

- Problem Solving & Debugging

- Strong Teamwork & Communication

Education

UNIVERSITY OF GHANA (LEGON) – Legon, Ghana.

BSc. Information Technology

2024-2028 (Expected)

Accra Academy Senior High School – Kaneshie, Ghana.

2021-2023

Yahweh International School

Basic Education Certification Examination

2020

Projects

Personal Chess game app
- Developed a cross-platform multiplayer chess game using Flutter.
- Integrated Firebase for real-time game state synchronization and player matchmaking.
- Designed a clean, responsive UI with interactive chess board.

Weather App
- Built a weather app using Flutter and OpenWeatherMap API.
- Parsed JSON data and displayed user-friendly weather summaries.

Chat App (Flutter & Dart)
- Built a real-time chat application using Flutter and Firebase.
- Implemented user authentication, chat rooms, and message persistence.
- Designed an intuitive user interface with responsive layouts.

Additional Information

Languages: English (Fluent)
Interests: Open-source projects, Leetcoding, Learning new frameworks
